Жанат Хафизовна,

ниже официальное письмо из Scopus, которое получил журнал и которое подтверждает наше вхождение в Scopus.

По переводу все хорошо?

С уважением,   Д.И. Борисов.

Title: Ufa Mathematical Journal
ISSN / E-ISSN: / 2304-0122
Publisher: Institute of Mathematics with Computing Centre, Ufa Science Centre, Russian Academy of Sciences

Dear Denis Borisov,

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB
has advised that the title will be **accepted** for inclusion in Scopus. For your information, the reviewer comments are copied below:

The distinguished editorial team is clearly doing an excellent job in ensuring that the articles accepted are of wide interest
and I hope that they will not relax their standards. The topics covered in the journal are of interest to pure and applied
mathematicians as well as to mathematical physicists. These topics have a very old and very distinguished tradition in this part of the world.
The work published here should be better known than I think it is at present. Standards must be maintained and perhaps
articles which are largely computational could be considered carefully at the referee stage.

If necessary, our Source Collection Management department will contact the publisher in order to set up the content feed for Scopus. The title will be loaded in Scopus as soon as we have access to the title and the content has been processed for indexing. At this moment, there is no further action required from your end.

Yours sincerely,

Scopus Title Evaluation Support
