Hikari Ltd

International Journal of Mathematical Analysis

Aims and scopes: The aim of the journal is to provide fast publication of refereed, high quality original research papers in all branches of pure and applied analysis.

Call for papers: The authors are cordially invited to submit papers to the Managing Editor: Emil Minchev. Manuscripts submitted to this journal will be considered for publication with the understanding that the same work has not been published and is not under consideration for publication elsewhere.

Instruction for authors: The manuscript should be prepared using LaTeX or Word processing system, basic font Roman 12pt size. The papers should be in English and typed in frames 14 x 21.6 cm (margins 3.5 cm on left and right and 4 cm on top and bottom) on A4-format white paper or American format paper. On the first page leave 7 cm space on the top for the journal's headings. The papers must have abstract not exceeding 200 words, as well as AMS Subject Classification and Keywords. The references should be in alphabetic order and must be organized as follows:

- [1] D.H. Ackeley, G.E. Hilton and T.J. Sejnovski, A learning algorithm for Boltzmann machine, Cognitive Science, 62 (1985), 147-169.
- [2] D.O. Hebb, Organization of Behaviour, Wiley, New York, 1949.
