

Guidelines for Seminar-4 Assignments

Groups 9-10, 11-12, and 3-4, who have Seminar-4 on Wednesday, March 8, must complete the assignments in writing: Part 1. Written answer (250-300 words) to question #6 - How does Maslow's hierarchy of needs explain human motivation? Part 2. Take the EI test, count the scores, enter them in the table, build your EI curve, and analyze three questions at the end of the test (250-300 words). Submit written answers in Word to the group leader, who will email those to me in a zip file—the deadline is March 10, 8 p.m.

The rest of the groups that have classes on Friday prepare the table with the EI scores and curve on paper and bring them to the Seminar on Friday, March 10. All other questions in Part 1 and Part 2 prepare for oral discussions in class.

Note: Your group # and Last-First Names are required.
