

## **Abstract**

The purpose of the manual is to develop the skills of intercultural communication necessary for professional communication based on the knowledge of linguistic and style features of scientific speech, the laws of constructing the text and the development of information in it.

The manual contains theoretical material, representing three thematic blocks. The manual also contains questions for self-examination and assignments that help to consolidate the knowledge gained and to develop the practical skills required in intercultural communication.

Addressed to students studying the specialties of the humanitarian direction of higher educational institutions of the Republic of Kazakhstan on the bachelor's program. It can be used both in practical exercises and SRSP, and extrabudgetary.
