

- 2-090 **S.A. Orazbayev, M. Silamiya, D.G. Batryshev, M.K. Dosbolayev, M.T. Gabdullin, T.S. Ramazanov, R.K. Tentekova, L. Boufendi**
Obtaining of carbon nanofilms in a plasma of RF discharge
- 2-091 **Hidetugu Yagi, Shoji Yahara, Yusuke Shibata**
Preparation of hard carbon films by microwave plasma-assisted chemical vapour deposition under the open-air
- 2-092 **M. Kiristi, E. Teke, F. Bozduman, A. Oksuz, L. Oksuz, A. Gulec**
W/Ti Thin Film With Tantalum Oxide Prepared by Reactive RF Magnetron Sputtering Deposition For All-Solid-State Electrochromic Device
- 2-093 **A. Lazea-Stoyanova, V. Marascu, S. Vizireanu, G. Dinescu**
Production of metallic particles at atmospheric pressure by a radiofrequency plasma jet
- 2-094 **L. Fedorenkova**
State of substance in a near-cathode zone under electrolyte discharge
- 2-095 **N.G. Korobeishnikov, V.V. Kalyada, A.E. Zarvin, A.A. Shmakov**
Accelerated cluster ion beams for materials processing

High pressure and thermal plasma processing

- 2-096 **V. Chinnov, E. Isakaev, O. Sinkevich, A. Tyufyayev**
The Low-Temperature Plasma Generators with Divergent Channel of the Output Electrode and Some Applications of these Generators
- 2-097 **A.M. Starik, A.S. Sharipov, N.S. Titova, I.V. Arsentiev**
Enhancement of syngas combustion through the excitation of vibrations of reacting molecules in electric discharge
- Plasma lamps and radiation sources**
- 2-098 **M.V. Isupov, A.V. Fedoseev, G.I. Sukhinin, I.M. Ulanov**
Experimental and numerical study of a low-frequency low-pressure Ar-Hg inductively coupled discharge
- Medical, biological, environmental and aeronautical applications**
- 2-099 **N. Bundaleska, R. Saavedra, E. Tatarova, F.M. Dias, J. Amorim, C.M. Ferreira**
Microwave plasma based sugarcane biomass pretreatment
- 2-100 **D. Dobrin, M. Magureanu, N.B. Mandache**
The influence of non-thermal plasma treatment on wheat germination
