N 47 Free and open source GIS software: educational manual / G.N. Nyussupova,
Sh.G. Kairova, A.M. Kalimurzina. – Almaty: Qazaq university, 2014. – 84 p.
ISBN 978-601-04-1034-3

This educational manual had been developed in accordance with state educational standards and core curriculum of «6M060900 – Geography» and «6D060900 – Geography» specialties. This textbook considers the basic introduction of some of the available free and open source software with easy-to-follow guidance for both GIS teachers and students. Also it consists of theoretical part, assignments, questions and references for each types of source software.

Учебное пособие разработано в соответствии с государственными общеобразовательными стандартами основных учебных планов специальностей «6M060900 – География» и «6D060900 – География». В учебном пособии представлены некоторые имеющиеся в свободном доступе программные обеспечения географических информационных систем. Учебное пособие представляет интерес для преподавателей и студентов в области ГИС. Пособие содержит теоретическую часть, практические задания, контрольные вопросы и ссылки для каждого программного обеспечения ГИС.
