**Methodical instructions for conducting  
self-sustained work of students**

**Independent work of students is one of the most important components of the educational process.** In the modern educational process, there is no problem more important and complex than organizing an independent work.

Correctly organized work of students has a huge educational and educational value, is one of the main conditions in achieving high results in teaching, in the formation of moral qualities, develops the ability to learn, engage in self-education and, consequently, is both a means and the goal of education. Only through independent work the student can become a good specialist. The systematic independent work of students improves the culture of their intellectual work, develops their ability to acquire and deepen knowledge independently, which is especially important in the conditions of rapid development of science and technology, when the specialist has to constantly engage in self-education after graduation - to increase his knowledge through independent study of various sources of information.

The purpose of these guidelines is to define the requirements and conditions necessary for organizing independent work on the discipline "International Criminal Law.

Tasks:

- Creation of conditions for the organization of independent work of students;
- to contribute to the formation of students' skills of independent, educational, research and practical work;
- to promote development and deepening of professional, scientific and practical interests of students;
- to contribute to the formation of professionally significant qualities, knowledge, skills and skills of future specialists.

In the course of independent work the student must:

- to master the theoretical material on the discipline under study (individual terms, individual topics, separate provisions, etc.);
- apply the acquired knowledge and skills to form their own position of the model (writing abstracts, reports).
