The Societal Costs and Benefits of C the Effects of Specific Policies Using

By: Macmillan, A (Macmillan, Alexandra)^[1]; Connor, J (Co
Kearns, R (Kearns, Robin)^[4]; Rees, D (Rees, David)^[5]; V

ENVIRONMENTAL HEALTH PERSPECTIVES

Volume: 122 Issue: 4 Pages: 335-344

DOI: 10.1289/ehp.1307250

Published: APR 2014

[View Journal Information](#)

Abstract

BACKGROUND: Shifting to active modes of transport in the trip to work can achieve substantial co-benefits for health, social equity, and climate change mitigation. Previous integrated modeling of transport scenarios has assumed active transport mode share and has been unable to incorporate acknowledged system feedbacks.

Impact Factor Trend Graph: ENVIRONMENTAL HEALTH PERSPECTIVES

Click on the "Return to Journal" button to view the full journal information.

**Impact Factor -- see below for calculations*

The journal impact factor is a measure of the frequency with which the "average article" in a journal has been cited in a given year. This will help you evaluate a journal's relative importance, especially when you compare it to others in the same field. For more information on this and other journal titles click on the "Return to Journal" button.

NOTE: Title changes and coverage changes may result in no impact factor for one or more years in the above graph.

2012 Impact Factor

Cites in 2012 to articles published in: 2011 = 1755 Number of articles published in: 2011 = 288
2010 = 2296 2010 = 270
Sum: 4051 Sum: 558
Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{4051}{558} = 7.260$

Значение импакт-фактора за последний доступный год отображается на графике и под ним.

Запишите это значение для выбранного журнала.
