Introduction

The final exam in the discipline "68761 Financial Law" for students will be held orally online in ZOOM format.

The final exam in the discipline "Fundamentals of International Financial Law" for full-time students will be held orally at Zoom.

Oral exam: traditional – answers to questions. Oral exam – according to the exam schedule, the student contacts the teacher or representatives of the examination commission through an online platform for webinars. The video recording of the exam is saved for 3 months from the date of the end of the session.

The exam format is synchronous.

The process of passing an oral exam by a student involves the automatic creation of an examination ticket, which the student must answer orally to the examination commission. When conducting an oral exam, a video recording is required.

The oral exam is conducted on the ZOOM platform.

Duration

The time for preparation is decided by the examiner or the examination commission. The time for the answer is decided by the examiner or the examination board. It is recommended 15-20 to answer all ticket questions.

Exam schedule The exam is conducted according to the schedule.

The exam format is synchronous. Synchronous format – the student takes the exam in real time "here and now".

The duration of the exam is from 60 minutes to several weeks, depending on the form.

Students:

Before starting the oral exam, you should check:

1. Internet connection on your work device (computer, monoblock, laptop, tablet), the device must be provided with charging during the entire exam time;
2. the serviceability of the web camera and microphone.

30 minutes before the start of the exam, all students of the group enter the video conference room organized by the teacher or members of the commission using the link specified in the rules of the final exam (sent by the teacher / the commission's shuttles in case of disruption of the video service).

30 minutes before the start of the exam, the possibility of logging into the Univer.kaznu system is checked.kz via any browser, but preferably via Google Chrome (in case of loss of login and / or password, the student must contact the supervisor-adviser before the exam begins). After verification, they log out of the account waiting for the commission invitation.

A student does not have the right to open a ticket before an individual invitation by the commission to take the exam. Only at the request of the commission, the student logs into the univer IP account, and opens his ticket for the video recording.

When the exam start time arrives, the student who is called by the commission shows his identity card to the camera. Enables screen demonstration. Log in to your Univer IP account, go to the "Exam Schedule" page, select the current exam by clicking on

the "Take an oral exam" button.

3. The "Take oral exam" function is active only after the start of the exam time;
4. The "Take an oral exam" function is active only for those students who have unclosed final statements (exam, retake, Incomplete).

After clicking on the link "Take an oral exam", a window will open where the student will see the questions of his exam ticket.

The student shows a screen with ticket questions, reads them out loud. Translates the display of the VCS service to the camera and prepares for the response.

Upon completion of his answer, he leaves the video conference hall.

If ZOOM is used for technical reasons, the examiner must distribute the exam into periods of 30-40 minutes for reconnection. The student must complete the exam in time for one session. It is forbidden to start responding in one session and finish after reconnecting.

If for technical reasons (power outage, disconnection or low Internet speed) a student who has already opened his ticket is absent from the exam online for more than 10 minutes, then his answer is canceled. The exam is postponed to another date in agreement with the Department of Academic Affairs.

The video recording is turned off only at the end of the exam, when the answers of all examinees are accepted.

Based on the results of the exam:

1. The examination board and the teacher certify the exam participants.
2. They put points in the final statement in the Univer IC.

The time for putting points in the attestation sheet for the oral exam is 48 hours.

Evaluation policy:

Criteria-based evaluation: evaluation of learning outcomes in accordance with descriptors, checking the formation of competencies (learning outcomes) at intermediate control and exams.

The assessment of examination papers is carried out on a 100-point scale, taking into account the degree of completeness of the student's answer:

Formula for calculating the final grade:

+Final grade (KB) = (B1+B2+B3+B4+B5+B6+B7+B8+B9+B10) / 6K, here B is the scoring criterion, K is the general assessment criterion.

Example of calculating the final score

№	Score	«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»	
		90-100 %	70-89%	50-69%	25-49%	0-24%
1.	Criteria 1	100				
2.	Criteria 2		75			
3.	Criteria 3			60		
4.	Criteria 4				45	
5.	Criteria 5	100				
6.	Criteria 6				49	
	Final %	200	75	60	94	200+ 75 + 60 + 94 = 429 429 / 6 criteria= 71,5 Final score, as % = 72

Based on percentage obtained during the calculation, we can compare the score with the rating scale.

72 points range from 70 points to 89 points, which corresponds to the “Good” category according to the grading scale.

Thus, with this calculation, the project will be rated **72 points “Good”** in accordance with the point-rating letter system for assessing educational achievements

students with their transfer to the traditional grading scale and ECTS.
