1. THE THEMATIC PROGRAM OF THE DISCIPLINE

Aim of discipline: The purpose of the Foreign Language discipline for first-year students is to develop foundational language skills that facilitate effective communication in a global context. This course aims to enhance students' listening, speaking, reading, and writing abilities in the target language, while also fostering cultural awareness and appreciation. By engaging with diverse texts, multimedia resources, and interactive activities, students will gain confidence in using the language for academic, professional, and social purposes.

Learning Outcomes in the discipline:

- admission to participation in a foreign language without any problems (independently and in groups);
- Demonstrate the ability to engage in basic conversations on everyday topics, using appropriate vocabulary and grammar structures.
- ability to study and analyze what has been learned
- Analyze and interpret various texts, including articles, short stories, and dialogues, identifying main ideas and supporting details.
- Understand and respond to spoken language in diverse contexts, demonstrating comprehension of key information and nuances.
- be able to share your experience or knowledge with the group and participate in discussions

Main topics studied in the discipline

MODULE 1

- Word order in questions
- Present Simple & Describing People
- Present Continuous & Prepositions
- Practical English Episode 1 & Review.

MODULE 2

- Past Simple & Travel Vocabulary
- Time Sequencers & Word Stress
- Future with Be Going To & Travel Plans
- Present Continuous for Future Arrangements
- Defining Relative Clauses

MODUL 3

- List of recommended sources
- Shopping; Adjectives
- Dreaming (shopping back story)
- Verb forms: present, past, future
- Modifiers
- Literature:
- Main literature

2. METHODOLOGICAL INSTRUCTION FOR FINAL EXAMINATION: STANDARD WRITTEN EXAMINATION (OFFLINE)

2.1. Exam format: Standard written examination (offline). **Platform:** IS Univer.

2.2. The purpose of the written exam is to demonstrate the learning outcomes, skills and competencies acquired during the study of the discipline, the ability to logically express one's thoughts in writing, and argue one's point of view.

2.3. Expected results of the exam tasks:

One written exam card contains 3 questions that identify learning outcomes for the course studied and are assessed according to the criteria described below:

Question 1 - Criterion 1. Knowledge of the theory and concept of the course; logic of presentation.

Criterion 2. Understanding and confirmation with examples of the theoretical principles presented in the course content.

Question 2 - Criterion 3. Application of the selected methodology and technology to written practical tasks. Criterion 4. Disclosure and solution of the main problem given in the practical task.

Question 3 - Criterion 5. Evaluation and written critical analysis of the applicability of the chosen methodology to the proposed practical task. Criterion 6. Justification of the result obtained from one's own practice.

2.4. The examination procedure.

2.4.1. The standard written offline exam is conducted in accordance with the approved schedule.

2.4.2. 15 minutes before the start of the offline written exam, the teacher on duty checks the students' identities using their ID cards, and seats the students in the seats indicated on the attendance sheets.

2.4.3. In the event that a substitute person appears at the offline written exam, the teacher on duty draws up a corresponding report of violation of these Rules.

2.4.4. Late students will not be allowed to take the exam.

2.4.5. During the exam, the teacher on duty monitors students' compliance with the rules of conduct in accordance with the approved instructions.

2.4.6. At the end of the time allotted for the exam (2 astronomical hours), the teacher on duty:

- 1) collects examination papers;
- 2) puts in each work a sign of the end of writing the work in the answer sheets - the letter X;
- 3) provides answer sheets along with attendance sheets for encryption to a specialist from the dean's office.

2.4.7. In case of delay in providing work for encryption to a specialist from the dean's office, a corresponding act is drawn up with subsequent prosecution of the perpetrators.

2.4.8. During the exam, students are prohibited from carrying and/or using cheat sheets, cell phones, smart watches and other technical and other means that can be used for unauthorized access to auxiliary information. It is prohibited to talk with other students and strangers, or to write down your full name and/or other identifying information in your answers.

2.4.9. If a student appears for the exam and refuses to answer the ticket, passing the exam will be graded as an "F."

2.4.10. If there is no good reason, failure to appear for the exam will be assessed as an "F".

2.4.11. If a student violates one or more of these points, an Act of cancellation of the examination work (hereinafter referred to as the Act) is filled out, and a grade of "F" ("unsatisfactory") is assigned for the discipline.

2.4.12. For repeated violation of these Rules during the exam, the student is presented for consideration by the Faculty Council on Ethics.

2.4.13. The final grade for the discipline can be canceled within 1 month after the exam, if a student is found to have violated the instructions for conducting final control using distance learning technologies and/or rules of behavior during the exam: using cheat sheets, cell phones, negotiating, etc. based on recordings from surveillance cameras with filling out the Report. The act cannot be annulled or appealed.

2.4.14. All violations during exams are recorded in the student's transcript.

RUBRICATOR FOR CRITERIAL ASSESSMENT OF FINAL EXAMINATION
 Discipline: Foreign language. Form: Standard written examination (offline). Platform: IS Univer

№	Score	DESCRIPTORS				
		«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»	0-24 %
Question 1	90-100 %	70-89 %	50-69 %	25-49 %	An “unsatisfactory” grade is given for incorrect coverage of the questions posed.	An “unsatisfactory” grade is also given for ignorance of basic concepts and theories; for violation of the Rules for final control.
<i>Criterion 1.</i> Knowledge of the theory and concept of the course; logic of presentation.	An “excellent” grade is given for an answer that contains an exhaustive explanation of the question, a detailed argumentation for each conclusion and statement, is constructed logically and consistently, and is supported by examples from the developed classroom topics.	A “good” grade is given for an answer that contains a complete but not exhaustive coverage of the issue, an abbreviated argumentation of the main points, and allows for a violation of the logic and sequence of presentation of the material. The answer contains stylistic errors and inaccurate use of terms.	A “satisfactory” grade is given for an answer that contains incomplete coverage of the questions proposed in the ticket, superficially argues the main points, and allows for the assumption of an incorrect conclusion.	An “unsatisfactory” grade is given for incorrect coverage of the questions posed.	An “unsatisfactory” grade is given for the assumption of an incorrect conclusion.	An “unsatisfactory” grade is also given for ignorance of basic concepts and theories; for violation of the Rules for final control.
<i>Criterion 2.</i> Understanding and confirmation with examples of the theoretical principles presented in the course content.	A comprehensive answer with illustrated examples was supported by specific examples. The answer is not fully given to the question; the answer is presented in literary scientific language, all terms and concepts are used correctly and explained correctly.	The student does not illustrate the answer with specific examples. There are some inaccuracies.	The student does not illustrate theoretical concepts with examples from the developed class notes.	The student does not illustrate Key concepts for the training course contained in questions are interpreted with significant errors.	The student does not provide examples to support the main theoretical principles of the course.	The student does not provide examples to support the main theoretical principles of the course.
Question 2	<i>Criterion 3.</i> Application of the selected methodology and technology to written practical tasks. Criterion followed by solving practical problems of the course.	Partial completion of the educational assignment, a detailed, reasoned written answer to the question posed with an incomplete solution to the practical problems of the course; illiterate use of scientific language norms in the course.	The material is presented in fragments, in violation of logical sequence, factual and semantic inaccuracies are made, and theoretical knowledge of the course is used superficially.	An irrational method of solving a task or an insufficiently thought-out answer plan; inability to solve problems, perform tasks in general; making mistakes and omissions that exceeds the norm.	Inability to apply knowledge and algorithms to solve tasks, inability to draw conclusions and generalizations.	Inability to apply knowledge and algorithms to solve tasks, inability to draw conclusions and generalizations.
<i>Criterion 4.</i> Disclosure and solution of the main problem given in the practical task.	Scientific concepts are freely applied to the task at hand, followed by a logical and evidence-based disclosure of the main problem.	The student's knowledge is adapted; the answers are weak structured, the answer contains minor factual errors, which he can correct independently, thanks to a leading question.	There is no meaningfulness of the material provided, there is no understanding of interdisciplinary connections.	The student finds it difficult to answer most of the additional questions on the content of the exam or does not give the correct answers.	The student did not fully understand the material.	The student did not fully understand the material.
<i>Criterion 5.</i>	Evaluation and written critical analysis of the applied methodology and	3-4 inaccuracies in the use of conceptual material, minor errors in generalizations and conclusions are allowed, which	There are conclusions on the applicability of substantiated scientific provisions are vague to the questions were incomplete, the conceptual	The task was completed with gross mistakes, the answers are no answers to the questions were incomplete, the conceptual	Violation of the Rules for final control. <i>Criterion 6.</i> Justification of the results/examples and visuals, including from the student's own materials, obtained from one's own practice.	The answer is illustrated with analysis of 3-4 provisions of existing theories, scientific schools and directions with justification of the result obtained from one's own practice on the issue of the exam writing.	Poor application of the main volume of material in accordance with the training program with difficulties in independently reproducing it card with some inaccuracies.	Demonstration of difficulty in providing written answers to problematic questions.	Lack of ability to apply course methods when giving examples. Violation of the Rules for final control.	

Formula for calculating the final grade:
Final grade (FG) = $(\%1 + \%2 + \%3 + \%4 + \%5 + \%6) / K$, where % is the level of task completion by criterion, K is the total number of criteria.

Example of calculating the final grade

Nº	Score	«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»	0-24%
		90-100 %	70-89%	50-69%		
Criterion						
1.	Criterion 1	100	75	60		
2.	Criterion 2			45		
3.	Criterion 3					
4.	Criterion 4	100		49		
5.	Criterion 5					
6.	Criterion 6	200	75	60	94	$200 + 75 + 60 + 94 = 429$
	Final %					$429 / 6 \text{ criteria} = 71,5$
						Final score, as % = 72

Based on percentage obtained during the calculation, we can compare the score with the rating scale.

Based on percentage obtained during the calculation, we can compare the score with the rating scale.

Thus, with this calculation, the project will be rated **72 points** "Good" in accordance with the point-rating letter system for assessing educational achievements

students with their transfer to the traditional grading scale and ECTS.
