

**Guidelines for the organization of the SSW (tasks for the SSW, a timetable for their implementation)
Foreign Language**

Lecturer: Nurlangazykyzy Balnur

SSW	Task	Objectives	Recommendations for Students
1st SSW	Written Assignment: "My vision of my future family"	1. Help you practice describing future scenarios. 2. Strengthen writing skills with a focus on structure and coherence. 3. Improve your use of future tenses and vocabulary related to personal life.	1. Start with a plan: Before writing, list ideas about your future family (size, values, traditions). 2. Use future tense: Practice using "will," "might," and "could" to talk about possibilities. 3. Organize your essay: Make sure your writing has a clear introduction, body, and conclusion. 4. Check your work: Proofread for spelling, grammar, and punctuation before submission.
2nd SSW	Presentation: "Who or What has changed my life for the better?"	1. Help you gain confidence in speaking English. 2. Enhance your ability to tell personal stories clearly and persuasively. 3. Practice using examples to support your ideas.	1. Choose a meaningful topic: Pick a person, event, or experience that had a big impact on you. 2. Structure your presentation: Begin with an introduction, explain the event or person, and end with how it affected you. 3. Practice speaking: Rehearse your presentation several times, focusing on clear pronunciation and pacing. 4. Engage your audience: Use eye contact and gestures to make your presentation more dynamic. 5. Use visuals: Add slides or pictures to help illustrate your points.
3rd SSW	Individual Presentation: "The future of work: How AI and automation are changing industries"	1. Encourage you to explore current trends and future developments in technology. 2. Improve your research and public speaking skills. 3. Practice using specific vocabulary related to technology and industry.	1. Do your research: Look for reliable articles, reports, or videos about AI and automation. 2. Use topic-specific vocabulary: Learn and use terms like "automation," "AI," "machine learning," etc. 3. Organize your ideas: Break your presentation into sections: Introduction, Key Points, Conclusion. 4. Make it relatable: Explain how AI might affect industries or jobs you're interested in. 5. Prepare for questions: Anticipate possible questions and think of responses to show deeper understanding.
