

AL-FARABI KAZAKH NATIONAL UNIVERSITY
Faculty of Philology
Department of Turkology and theory of language

PROGRAM OF FINAL EXAMINATION IN THE DISCIPLINE

Code: IYa 1105

ID: 50

Discipline: Foreign language

Educational programme: "6B01704 – Foreign language: two foreign languages"

Course – 1

Semester – 1

Number of credits – 5

1. THE THEMATIC PROGRAM OF THE DISCIPLINE

The aim of the discipline: Providing a structured approach to understanding the rules and principles that govern language use. It seeks to establish a framework that defines how words, phrases, and sentences should be constructed for effective communication.

Learning outcomes in the discipline: The ability to understand, apply, and analyze grammatical rules, enabling precise and coherent communication, critical language analysis, and improved proficiency in both spoken and written forms.

Main topics studied in the discipline.

Module 1

The way we are

The art of beauty

Reading Ideal beauty

Strategy Guessing the meaning of unknown words

Vocabulary Describing appearance

Vocabulary insight Compound adjectives: appearance

Appearance and survival

Grammar Present simple and present continuous

Listening Humans and survival

Travellers' tales

The power of tourism

Reading A road less travelled

Vocabulary insight Compound nouns: travel

Vocabulary Travel

Memorable journeys

Grammar Narrative tenses

Listening Alternative holidays

Feeling good

Happiness

Reading Is chocolate the answer?

Strategy Identifying main ideas of paragraphs

Vocabulary insight Idioms: happiness and sadness

Vocabulary insight Noun suffixes: -ness, -ity

Healthy bodies, healthy minds?

Grammar Past simple and present perfect

Listening Physical activity in school

Module 2

A right to fight

Disappearing worlds

Reading Island story

Vocabulary The environment

Vocabulary insight Prefixes: semi-, under-, over-, re-, co-, inter-

Grammar Expressing the future

Listening A Critical Mass bike ride

Rights and wrongs

Teenage gangs

Reading The choice

Strategy Using referencing to understand a text

Vocabulary Crime

Vocabulary insight Noun prefixes: mis-, dis-

Natural born liars

Grammar First and second conditionals

Listening Moral dilemmas

Paying the price

Word on the street

Reading The influencers

Vocabulary Advertising

Vocabulary insight Collocations: advertising

Fairtrade

Grammar The passive

Listening A fair-trade fashion show

Module3

The senses

Taste

Reading A question of taste

Strategy Understanding the purpose of a paragraph

Vocabulary insight Perception and observation

Vocabulary insight Adverb-adjective collocations

Beyond human senses

Grammar Reported speech

Listening Dogs to the rescue

Decisions

Think differently

Reading The big question

Vocabulary Describing jobs

Vocabulary insight Idioms: work

If they hadn't...

Grammar Third conditional; / wish and If only

Listening Help from Heifer Listening Regrets

Digital humans

A day in the life

Reading A day in the life of a digital human

Vocabulary insight Phrasal verbs: relationships

Vocabulary insight Words often confused

Friendships now and then

Grammar Defining relative clauses

Listening Online friendships

Creativity

Art is everywhere

Reading The stories behind the names

Strategy Summarizing what you read

Vocabulary Abstract nouns: talent

Vocabulary insight Phrases with and

Around the world in one dance

Grammar Participle clauses Listening Singing in the Rain

List of recommended sources.

Main literature:

1. English file (fourth edition). Pre-Intermediate. Student's book. Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, Oxford university press
2. English file (fourth edition). Pre-Intermediate. Workbook. Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, Oxford university press

Additional literature:

1. English vocabulary organizer. Chris Gough

Internet resources:

1. <http://elibrary.kaznu.kz/ru>

2. METHODOLOGICAL INSTRUCTION FOR FINAL EXAMINATION: STANDARD WRITTEN EXAMINATION (OFFLINE)

2.1. Exam format: Standard written examination (offline). **Platform:** IS Univer.

2.2. The purpose of the written exam is to demonstrate the learning outcomes, skills and competencies acquired during the study of the discipline, the ability to logically express one's thoughts in writing, and argue one's point of view.

2.3. Expected results of the exam tasks:

One written exam card contains 3 questions that identify learning outcomes for the course studied and are assessed according to the criteria described below:

Question 1 - Criterion 1. Knowledge of the theory and concept of the course; logic of presentation.
Criterion 2. Understanding and confirmation with examples of the theoretical principles presented in the course content.

Question 2 - Criterion 3. Application of the selected methodology and technology to written practical tasks. Criterion 4. Disclosure and solution of the main problem given in the practical task.

Question 3 - Criterion 5. Evaluation and written critical analysis of the applicability of the chosen methodology to the proposed practical task. Criterion 6. Justification of the result obtained from one's own practice.

2.4. The examination procedure.

2.4.1. The standard written offline exam is conducted in accordance with the approved schedule.

2.4.2. 15 minutes before the start of the offline written exam, the teacher on duty checks the students' identities using their ID cards, and seats the students in the seats indicated on the attendance sheets.

2.4.3. In the event that a substitute person appears at the offline written exam, the teacher on duty draws up a corresponding report of violation of these Rules.

2.4.4. Late students will not be allowed to take the exam.

2.4.5. During the exam, the teacher on duty monitors students' compliance with the rules of conduct in accordance with the approved instructions.

2.4.6. At the end of the time allotted for the exam (2 astronomical hours), the teacher on duty:

- 1) collects examination papers;
- 2) puts in each work a sign of the end of writing the work in the answer sheets - the letter X;
- 3) provides answer sheets along with attendance sheets for encryption to a specialist from the dean's office.

2.4.7. In case of delay in providing work for encryption to a specialist from the dean's office, a corresponding act is drawn up with subsequent prosecution of the perpetrators.

2.4.8. During the exam, students are prohibited from carrying and/or using cheat sheets, cell phones, smart watches and other technical and other means that can be used for unauthorized access to auxiliary information. It is prohibited to talk with other students and strangers, or to write down your full name and/or other identifying information in your answers.

2.4.9. If a student appears for the exam and refuses to answer the ticket, passing the exam will be graded as an "F."

2.4.10. If there is no good reason, failure to appear for the exam will be assessed as an "F".

2.4.11. If a student violates one or more of these points, an Act of cancellation of the examination work (hereinafter referred to as the Act) is filled out, and a grade of "F" ("unsatisfactory") is assigned for the discipline.

2.4.12. For repeated violation of these Rules during the exam, the student is presented for consideration by the Faculty Council on Ethics.

2.4.13. The final grade for the discipline can be canceled within 1 month after the exam, if a student is found to have violated the instructions for conducting final control using distance learning technologies and/or rules of behavior during the exam: using cheat sheets, cell phones, negotiating, etc. based on recordings from surveillance cameras with filling out the Report. The act cannot be annulled or appealed.

2.4.14. All violations during exams are recorded in the student's transcript.

3. EVALUATION POLICY.

№	Score	DESCRIPTORS				
		«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»	
		90-100 %	70-89 %	50-69 %	25-49%	0-24 %
Question 1	Criterion 1. Knowledge of the theory and concept of the course; logic of presentation.	An “excellent” grade is given for an answer that contains an exhaustive explanation of the question, a detailed argumentation for each conclusion and statement, is constructed logically and consistently, and is supported by examples from the developed classroom topics.	A “good” grade is given for an answer that contains a complete but not exhaustive coverage of the issue, an abbreviated argumentation of the main points, and allows for a violation of the logic and sequence of presentation of the material. The answer contains stylistic errors and inaccurate use of terms.	A “satisfactory” grade is given for an answer that contains incomplete coverage of the questions proposed in the ticket, superficially argues the main points, and allows compositional imbalances in the presentation, violations of the logic and sequence of presentation of the material.	An “unsatisfactory” grade is given for incorrect coverage of the questions posed, erroneous argumentation, factual and verbal errors, and for the assumption of an incorrect conclusion.	An “unsatisfactory” grade is also given for ignorance of basic concepts and theories; for violation of the Rules for final control.
	Criterion 2. Understanding and confirmation with examples of the theoretical principles presented in the course content.	A comprehensive answer with illustrated examples was given to the question; the answer is presented in literate scientific language, all terms and concepts are used correctly and explained correctly.	The answer is not fully supported by specific examples. There are some inaccuracies.	The student does not illustrate theoretical concepts with examples from the developed class notes.	Key concepts for the training course contained in questions are interpreted with significant errors.	The student does not provide examples to support the main theoretical principles of the course.
Question 2	Criterion 3. Application of the selected methodology and technology to written practical tasks. Criterion 4. Disclosure and solution of the main problem given in the practical task.	Excellent completion of the training assignment, a detailed, reasoned written answer to the question posed, followed by solving practical problems of the course.	Partial completion of the educational assignment, incomplete, sometimes reasoned answer to the question posed with an incomplete solution to the practical problems of the course; illiterate use of scientific language norms in the course.	The material is presented in fragments, in violation of logical sequence, factual and semantic inaccuracies are made, and theoretical knowledge of the course is used superficially.	An irrational method of solving a task or an insufficiently thought-out answer plan; inability to solve problems, perform tasks in general; making mistakes and omissions that exceeds the norm.	Inability to apply knowledge and algorithms to solve tasks; inability to draw conclusions and generalizations. Violation of the Rules for final control.
	Criterion 4. Disclosure and solution of the main problem given in the practical task.	Scientific concepts are freely applied to the task at hand, followed by a logical and evidence-based disclosure of the main problem.	The student's knowledge is adapted; the answers are weak structured, the answer contains minor factual errors, which he can correct independently, thanks to a leading question.	There is no meaningfulness of the material provided, there is no understanding of interdisciplinary connections.	The student finds it difficult to answer most of the additional questions on the content of the exam or does not give the correct answers.	The student did not fully understand the material. Violation of the Rules for final control.
Question 3	Criterion 5. Evaluation and written critical analysis of the applicability of the chosen methodology to the proposed practical task.	Consistent, logical and correct justification of scientific principles and the applied methodology and technology, literacy, compliance with the norms of scientific language, 1-2	3-4 inaccuracies in the use of conceptual material, minor errors in generalizations and conclusions are allowed, which do not affect the good overall level of task completion.	There are conclusions on the applicability of substantiated scientific provisions are vague and unconvincing; there are stylistic and grammatical errors, as well as inaccuracies in processing the results of a	The task was completed with gross mistakes, the answers to the questions were incomplete, the conceptual material and argumentation were poorly used.	The task has not been completed, there are no answers to the questions posed, materials and analysis tools have not been used.

	presentation of the material are allowed, which do not affect the generally correct conclusions.				
Criterion 6. Justification of the results obtained from one's own materials, including from the student's own practice.	The answer is illustrated with examples and visuals.	Analysis of 3-4 provisions of existing theories, scientific schools and directions with justification of the result obtained from one's own practice on the issue of the exam card with some inaccuracies.	Poor application of the main volume of material in accordance with the training program with difficulties in independently reproducing it in writing.	Demonstration of difficulty in providing written answers to problematic questions.	Lack of ability to apply course methods when giving examples. Violation of the Rules for final control.

Formula for calculating the final grade:

Final grade (FG) = (%1+%2+%3+%4+%5+%6) / K, where % is the level of task completion by criterion, K is the total number of criteria.

Example of calculating the final grade

№	Score	«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»	
		90-100 %	70-89%	50-69%	25-49%	0-24%
Criterion						
1. Criterion 1	100					
2. Criterion 2			75			
3. Criterion 3				60		
4. Criterion 4					45	
5. Criterion 5	100					
6. Criterion 6					49	
Final %	200		75	60	94	200+ 75 + 60 + 94 = 429 429 / 6 criteria = 71,5 Final score, as % = 72

Based on percentage obtained during the calculation, we can compare the score with the rating scale.

72 points range from 70 points to 89 points, which corresponds to the "Good" category according to the grading scale. Thus, with this calculation, the project will be rated 72 points "Good" in accordance with the point-rating letter system for assessing educational achievements students with their transfer to the traditional grading scale and ECTS.
