## EXAM PROCEDURE

### **Exam form and platform: oral offline exam based on the IS "Univer"**

An *oral examination* is an exam in which a student is assessed through oral responses to questions and assignments. Oral examinations assess a student's oral communication skills, understanding of the subject, and ability to express their knowledge and thoughts coherently.

During the response, the student may be asked questions about the subject to solve problems, discuss a specific topic, or provide explanations and analysis. The examiner evaluates the student's understanding of the subject, critical thinking skills, and clarity of answers.

The oral examination assesses students' knowledge, understanding, communication skills, and critical thinking abilities in a face-to-face setting.

### **Exam objectives:**

1. Test your knowledge of the theoretical foundations of international marketing, including key concepts, principles, models, and classifications.
2. Evaluate students' ability to analyze the external marketing environment, including economic, cultural, political, legal, and technological factors.
3. Test the ability to apply approaches to segmentation, targeting and positioning (STP) in international markets.
4. Evaluate the ability to develop and adapt marketing strategies and tools (4P), taking into account the specifics of different countries.
5. Test the skills of analyzing cross-cultural differences and developing appropriate communication solutions.
6. Evaluate the ability to apply marketing research methods and interpret the results in an international context.

### **Examination procedure:**

The exam process involves the automatic creation of an exam ticket, to which the student must give an oral answer.

1. On the eve of the exam, students receive a notification.
2. The student must appear in the classroom at the appointed time.
3. It is forbidden to bring smartphones, smart watches, headphones and other electronic devices into the audience.
4. Exam tickets are generated automatically through the IS "Univer" individually for each student.
5. The student receives a ticket and begins to prepare. The time to prepare responses is no more than 30 minutes.
6. The examination is conducted in the presence of the commission.
7. Upon completion of the exam, the student submits the paper and leaves the classroom.

### **The exam ticket contains 3 questions:**

- 1 question – 30 points (theoretical)
- 2 question – 30 points (analytical/applied)
- 3 question – 40 points (situational task or case)

The total amount is 100 points. To qualify, you must score at least 50 points.

## **GRADING POLICY**

A grading policy based on a rubric that incorporates Bloom's Taxonomy and is aligned with the course's learning outcomes provides a structured and effective way to assess student performance and ensure that assessment is related to the course's educational objectives.

Using a rubric ensures fair and impartial grading. Students have the opportunity to challenge their grades if they believe they have been graded incorrectly.

A grading policy based on a rubric incorporating Bloom's taxonomy and course learning outcomes provides several advantages. Using a rubric improves consistency between assessments and learning objectives, offers a structured assessment of student performance, and ensures transparent and consistent grading. In addition, they empower students by clearly defining expectations and areas for improvement, which ultimately contributes to their educational development and course success. The criteria-based assessment rubric is given in Appendix A.

## **Literature**

1. Civil law. Volume III. Textbook for universities (academic course) / otv. Ed. M.K.Suleymenov, Yu.G.Basin. -Almaty, 2021.-S. 86-273
