K 11 Psychological aspects of marital relationships stabilization:  
monograph / M.P. Kabakova. – Almaty: Kazakh university, 2018.  
– 192 p.

**ISBN 978-601-04-3667-1**

The monograph is devoted to theoretical study and experimental research of psychological factors and mechanisms of marital relations stabilization in the process of joint life activity. The obtained data and materials presented in the monograph will serve as an addition to the courses “Psychology of Family and Marriage”, “Cross-cultural Study of Marriage and Family Relations” for students and undergraduates of the specialty “Psychology”.

The work is addressed to specialists in the field of family psychology, students, undergraduates and doctoral students of the specialty “Psychology”, as well as to all who are interested in family and marriage problems.
