The tutorial "Biophysics test questions" was prepared by the author's team of the Department of Biophysics, Biomedicine and Neuroscience. The tutorial is written according to the requirements of the program "Biophysics". Test questions are divided into 6 topics of the course, for each question, 5 possible answers are offered, of which one to three options can be correct. The test questions presented in the manual provide an opportunity to consolidate the basic knowledge of the discipline being studied. The proposed tests can be used for the operational control of students' knowledge during the academic year, for the final exams conducted in a test form.
