ТҮЙІНДЕМЕ

Мақалада көне түркі жазба ескерткіштерінде кездесетін лауазым атаулары қарастырылады. Көне түркі дәуіріне тән лауазым атаулары ортағасырлық түркі мемлекеттерінің әкімшілік құрылымынан, саяси жағдайынан хабар бергендіктен, түркі халықтарының тарихы, әдебиеті туралы жазылған ғылыми еңбектерде талданғанымен, лауазым атауларының этимологиясы, қазіргі түркі тілдерінде сақталуы сияқты қырларынан зерттеуді қажет ететін өзекті тақырып. Мақалада Күлтегін, Білге қаған, Тоныкөк, Онгин, Күлічор, Мойынчор сияқты көлемді ескерткіштермен қатар, Енисей бойынан табылған ұсақ ескерткіш мәтіндерінде кездесетін әкімшілік басқару атауларына талдау жасалынды. Жұмыс барысында сипаттау, салыстыру, талдау әдістері қолданылды. Ескерткіштерде кездесетін *qayan, qan, tarqan, šad, ajuučī*, т.б. лауазымдық атаулардың шығу тегі, уәжі, қазіргі түркі тілдерінде кездесуі талданып, лексикографиялық еңбектердегі сипаттамалары салыстырылды. Жұмыс барысында жекелеген лауазым атауларының жалқы есімдермен де байланысы қарастырылып, мәтінде кездесетін антропонимдерге де уәждемелік талдаулар жасалды.

Кілт сөздер: лауазым атаулары; Күлтегін; қаған; Тоныкөк; Шығыс Түрік қағанаты; руникалық ескерткіштер.

ABSTRACT

The article discusses the names of positions found in ancient Turkic written monuments. Although the names of positions characteristic of the ancient Turkic period are analyzed in scientific works on the history and literature of the Turkic peoples, since they tell about the administrative structure and political situation of the medieval Turkic states, the etymology of the names of positions, preservation in modern Turkic languages, is an urgent topic that needs to be studied. In addition to such large-scale monuments as Kultegin, Bilge Kagan, Tonykok, Ongin, Kulichor, and Moynchor, the article analyzes the names of administrative management found in the texts of small monuments found throughout the Yenisei. In the course of the work, methods of description, comparison, and analysis were used. *Qayan, qan, tarqan, šad, ajuučī*, etc. the origin, motivation, and meeting of official names in modern Turkic languages were analyzed and their characteristics in lexicographic works were compared. In the course of the work, the relationship of individual job titles with proper names was considered, and motivational analyses were also made on the anthroponyms present in the text.

Keywords: titles of positions; Kultegin; kagan; Tonyukuk; Eastern Turkish kaganate; runic monuments.
