ISBN 978-601-04-0804-3

This course of lectures is a comprehensive lecture notes on the course “Electricity and Magnetism”, taught in English at the Department of Physics and Technology of Al-Farabi Kazakh National University for more than a decade.

It is intended for second year students of special groups of universities, majoring in the specialties of “Physics”, “Nuclear Physics” and “Technical Physics”.

The authors are grateful to the Ministry of Education and Science of the Republic of Kazakhstan for the support of one of them (A.E. Davletov) rendered by granting the title of “The Best University Professor – 2013”.
