RUBRICATOR FOR CRITERIAL ASSESSMENT OF FINAL EXAMINATION

Discipline: «Foreign languages (professional)»

Form: Standard written examination (offline). Platform: IS Univer

№	Score	DESCRIPTORS				
		«Excellent» 90-100 %	«Good» 70-89 %	«Satisfactory» 50-69 %	«Unsatisfactory» 25-49 % 0-24 %	
Question 1	Criterion 1. Knowledge of the theory and concept of the course; logic of presentation.	An "excellent" grade is given for an answer that contains an exhaustive explanation of the question, a detailed argumentation for each conclusion and statement, is constructed logically and consistently, and is supported by examples from the developed classroom topics.	A "good" grade is given for an answer that contains a complete but not exhaustive coverage of the issue, an abbreviated argumentation of the main points, and allows for a violation of the logic and sequence of presentation of the material. The answer contains stylistic errors and inaccurate use of terms.	A "satisfactory" grade is given for an answer that contains incomplete coverage of the questions proposed in the ticket, superficially argues the main points, and allows compositional imbalances in the presentation, violations of the logic and sequence of presentation of the material.	An "unsatisfactory" grade is also given for ignorance of basic concepts and theories; for violation of the Rules for final control.	
	Criterion 2. Understanding and confirmation with examples of the theoretical principles presented in the course content.	A comprehensive answer with illustrated examples was given to the question; the answer is presented in literate scientific language, all terms and concepts are used correctly and explained correctly.	The answer is not fully supported by specific examples. There are some inaccuracies.	The student does not illustrate theoretical concepts with examples from the developed class notes.	Key concepts for the training course contained in questions are interpreted with significant errors.	The student does not provide examples to support the main theoretical principles of the course.
Question 2	Criterion 3. Application of the selected methodology and technology to written practical tasks. Criterion 4. Disclosure and solution of the main problem given in the practical task. Violation of the Rules for final control.

Demonstration of difficulty in providing written answers to problematic questions.	Lack of ability to apply course methods when giving examples. Violation of the Rules for final control.

Formula for calculating the final grade:

Final grade (FG) = $(\%1 + \%2 + \%3 + \%4 + \%5 + \%6) / K$, where % is the level of task completion by criterion, K is the total number of criteria.

Example of calculating the final grade

№	Score	«Excellent»	«Good»	«Satisfactory»	«Unsatisfactory»
		90-100 %	70-89%	50-69%	25-49% 0-24%
Criterion					

24

1. Criterion 1	100				
2. Criterion 2		75			
3. Criterion 3			60		
4. Criterion 4				45	
5. Criterion 5	100				
6. Criterion 6				49	
Final %	200	75	60	94	200+ 75 + 60 + 94 = 429 429 / 6 criteria = 71,5 Final score, as % = 72

Based on percentage obtained during the calculation, we can compare the score with the rating scale. 72 points range from 70 points to 89 points, which corresponds to the "Good" category according to the grading scale. Thus, with this calculation, the project will be rated 72 points "Good" in accordance with the point-rating letter system for assessing educational achievements students with their transfer to the traditional grading scale and ECTS.
