About the Symposium

The 5th Symposium on EuroAsian Biodiversity (SEAB-2021) will be organized by Al-Farabi Kazakh National University, KAZAKHSTAN, and Muğla Sıtkı Koçman University, TURKEY, in collaboration with other universities and institutes from seven different countries, on July 01-03, 2021. SEAB-2021 will be conducted online due to COVID-19 pandemic.

SEAB is one of the largest symposiums that gets together of scientists, conservationists, environmentalists, civil society groups and local communities, a platform to discuss the current status of biodiversity in EuroAsia, an inclusive colloquium to forward strategies and policies to conserve the rich biodiversity heritage of the area.

It is expected that we will have colleagues from related countries for this conference that will represent valuable scientific presentations. During the SEAB-2021, we will have keynote speeches, paper and poster presentations.

SEAB-2021 will provide a scientific platform for conservation leaders, thinkers, and practitioners, scientists, natural resource managers, and environmental consultants to planners, environmental advocates, and corporate and public policy-makers around the EuroAsia to exchange knowledge, discuss issues, share innovations, and network.

Partners

- Muğla Sıtkı Koçman University, Department of Molecular Biology and Genetics; Department of Biology; Department of Chemistry, Muğla, **Turkey**
- Faculty of Biology and Biotechnology, Al-Farabi Kazakh National University & Institute of Plant Biology and Biotechnology, Science Committee of Ministry of Education and Science, **Republic of Kazakhstan**
- Azerbaijan National Academy of Science, Institute of Dendrology Mardakan, Baku, **Azerbaijan**
- Institute of Cell Biology and Genetic Engineering, NASU, (Kyiv, Ukraine) & Taras Shevchenko National University of Kiev, **Ukraine**
- The Georgian Academy of Agricultural Sciences, Tbilisi, **Georgia**
- Russian State Agrarian University, Faculty Agronomy and Biotechnology, Department of Genetics, Biotechnology, Plant Breeding and Seed, Moscow, **Russia**
- Belarus State University, Faculty of Biology, Minsk, **Belarus**

Symposium Topics

- Animal Biodiversity
- Artificial Intelligence
- Biochemical Diversity of Life
- Biodiversity and Conservation
- Biodiversity and Education
- Biodiversity and Food Security
- Biogeography and Biodiversity
- Bioinvasion and Biodiversity
- Bioremediation
- Biotechnological Application of Biodiversity
- COVID 19
- Ecotourism
- Environmental Toxicology and Biodiversity
- Forest Ecosystem and Biodiversity

- Genetically Modified Organisms and Biodiversity
- Genetic Resources and Biodiversity
- Global Health Disease and Biodiversity
- Green Energy Technology and Biodiversity
- Impact of Climate Change and Biodiversity
- Marine & Freshwater Biodiversity
- Microbial Biodiversity
- Plant Biodiversity
- Post Genomic Technologies and Biodiversity
- Renewable and Sustainable Biodiversity
- Soil Biodiversity
- Urban Biodiversity
- Wild Life Biodiversity

PROGRAMME

of the 5th Symposium

on EuroAsian Biodiversity

(KAZAKHSTAN TIME)

DEAR Colleagues

We invite you to take part in the International scientific and practical conference «**The 5th Symposium on EuroAsian Biodiversity (SEAB-2021)**», which takes place on 1-3 July 2021 at 12 AM (by Almaty time), «Al-Farabi Library» of KazNU, 4th floor, No. 3 conference hall and online (Zoom)

Organizers:

- Al-Farabi Kazakh National university
- Muğla Sıtkı Koçman University

Opening Remarks, Plenary reports and Hall A. 1-2 July 2021.

<https://us02web.zoom.us/j/88530986101?pwd=YmhzU1J3bGIvMnc0SHkxVXJKUUVMUT09>

Conference ID: 885 3098 6101

Access code: 206558

Will be organized by KazNU side.

Hall B. 1-2 July 2021.

<https://us02web.zoom.us/j/85401178233?pwd=TjVER3JLaWRSMlZoL2JEY3VySTNFUT09>

Conference ID: 854 0117 8233

Access code: 279961

Will be organized by KazNU side.

Hall C.

<https://zoom.us/j/8076698176?pwd=MXFhNUdlV2FNeXp6UHE3clljeW9EZz09>

Conference ID: 807 669 8176

Access code: SNDAP2

Will be organized by Mugla Universty side.

Hall D.

<https://zoom.us/j/2820125369?pwd=cGxxN1J6VVUvelJLSXNBK0Yvc1Jpdz09>

Conference ID: 282 012 5369

Access code: Zg0HcP

Will be organized by Mugla Universty side

01.07.2021 Al-Farabi Kazakh National University , Almaty (Kazakhstan) – Muğla Sıtkı Koçman University (Turkey). The program was made in Kazakhstan time 12⁰⁰

12 ⁰⁰ -12 ⁰⁵	The presenter will say the first word.
12 ⁰⁵ -12 ²⁰	The State Anthems of Turkey and Kazakhstan Will Be Voiced
12 ²⁰ -12 ³⁰	Opening Speech of the Rector of Muğla University – Prof. Dr. Hüseyin Çiçek
12 ³⁰ -12 ⁴⁰	Opening Speech of the Host Al-Farabi University Rector - Doctor of Philology, Professor Zhanseit Kanseituly TUYMEBAYEV

Speeches of the invited speakers (Al-Farabi University)

**Chairs: Prof., Dr. Bio. Sc. Academician ZAYADAN Bolatkhan,
PhD. Doctoral Student KAKIMOVA Ardark**

12 ⁴⁰ -13 ¹⁰	1. Prof. Dr. Yusuf BARAN Rector of Izmir Institute of Technology, Turkey Title: "Drug Resistance in Cancer".
13 ¹⁰ -13 ⁴⁰	2. Prof. Dr. Owen T NEVIN Chief Executive Officer, Western Australian Biodiversity Institute Adjunct Professor of Conservation Biology, CQUniversity Australia Title: "Research Collaborations in the Almaty State Nature Reserve Snow leopards in a changing climate."
13 ⁴⁰ -14 ¹⁰	3. Prof. Dr. Yerlan TURUSPEKOV Institute of Plant Biology and Biotechnology, Almaty, Kazakhstan Title: "Genetic diversity of wild plants species in Kazakhstan".
14 ¹⁰ -14 ⁴⁰	4. Prof. Dr. Yakup KASKA Board Chairman of DEKAMER, Department of Biology, Pamukkale University, Turkey. Title: "Sea Turtles and Global Climate Change"
14 ⁴⁰ -15 ¹⁰	5. Assoc. Prof. Dr. Mikołaj KOKOCIŃSKI Department of Hydrobiology, Faculty of Biology, Adam Mickiewicz University, Poznań, Poland. Title: "The expansion of alien and invasive cyanobacteria and its consequences for the functioning of aquatic ecosystems"

Launch, Tea and coffee break

FULL TEXT ARTICLES

FT-001 - Comparison of Genome Organizations of Lymantria dispar Nucleopolyhedroviruses (LdNPV) from Turkey	42-52
FT-002 - Orthoptera Fauna of Artvin	53-63
FT-003 - A Study on Determining Fish Consumption Behaviors of High School Students Studying in Muğla Province (Turkey).....	64-68
FT-004 - Antimicrobial Potential of Four Plant Species from Turkey.....	69-73
FT-005 - How we understand genetic diversity of sea turtles by using mtDNA	74-78
FT-006 - The Mixed-Stock Analysis Proved Diverse Genetic Composition of Stranded Loggerhead Turtles (<i>Caretta caretta</i>) Along the Turkish Coast.....	79-83
FT-007 - Gaining insights into the reproductive behaviour of <i>Caretta caretta</i>	84-88
FT-008 - Genetic Structure of Sporadic Nesting Loggerhead Sea Turtle (<i>Caretta caretta</i>) in Aegean Coast of Turkey.....	89-92
FT-009 - Impact of Phytic Acid on the Quality of Wheat Grains	93-99
FT-010 - Flea beetle (<i>Chaetocnema concinna</i> M, 1802) and brassy flea beetle (<i>Ch.breviuscula</i> Fald, 1884) as the main pests of the sugar beet.....	100-104
FT-011 - Analysis of Absheron Flora.....	105-113
FT-012 - Effect of Medical Aromatic Plant Extract on Wood Surface Roughness.....	114-119
FT-013 - Biomass: Waste Tea Plant Extract and Wood Thermogravimetric Analysis (TGA).....	120-126
FT-014 - Reproduction and use of medicinal rosemary in the Absheron peninsula	127-131
FT-015 - Diversity of medicinal plants growing in the area of South Caucasus Pipeline Expansion (SCPX) of Azerbaijan Republic	132-138
FT-016 - Ornamental Plants Resistant to Drought Stress in Landscape Areas	139-146
FT-017 - The Effect of Bacteria Applications Showing Accd Activity on The Seedling of <i>Cucumis melo</i> var. <i>agrestis</i> Seeds Under Lead (Pb) Stress	147-151
FT-018 - The Effect of Bacteria Applications Showing Accd Activity on The Seedling of <i>Cucumis melo</i> var. <i>agrestis</i> Seeds Under Nickel (Ni) Stress	152-157
FT-019 - Regression Tree Analysis of Factors Affecting First Flowering Time of <i>Tulipa gesneriana</i> L	158-164
FT-020 - The Modern Species Composition of the Commercial Ichthyofauna of the Middle and Lower Reaches of the Zhaiyk River.....	165-169
FT-021 - Potential in-vitro Biological Activities (FRAP, CUPRAC, β-Carotene-Linoleic Acid, Phosphomolybdenum Assays) of <i>Cyclamen cilicum</i>	170-175

SEAB2021

www.seab2021.mu.edu.tr

ORAL PRESENTATIONS

OP-001 - A variety of environmental factors that contribute to the development of allergies in children	177
OP-002 - Remediation of Soil from Heavy Metals with the Carpobrotus Plant	178
OP-003 - RNA Isolation and miRNA Analyze from Sheep Milk: A New Perspective for Mammary Gland Gene Expression	179
OP-004 - Gene pool of mammals of the state nature reserve Karatal-Japyryk (Kyrgyzstan)	180
OP-005 - Investigation of some endemic plants of Mersin and their cultural opportunities II	181
OP-006 - Genotoxic Effects of Fe_2O_3 Nanoparticles Used in Various Fields and Environment	182
OP-007 - Prospects and necessity for creation of collection of wild relatives of fat-oil crops of Kazakhstan.....	183
OP-008 - The Effect of Bacteria Applications Showing ACCD Activity on the Seedling of <i>Cucumis melo</i> var. <i>agrestis</i> Seeds Under Nickel Contaminated Media	184
OP-009 - Invasion alert: Range extension of the eastern mosquitofish (<i>Gambusia holbrooki</i> Girard, 1859) in Karaburun Peninsula (İzmir, Turkey)	185
OP-010 - Effects of <i>Tribulus terrestris</i> L. on Growth Parameters of Male Rainbow Trout (<i>Oncorhynchus mykiss</i>).....	186
OP-011 - Genetic structure analysis of <i>Juniperus seravshanica</i> Kom. using polymorphic microsatellite markers.....	187
OP-012 - Value of Winter Pastures of the Shirvan Regions of Azerbaijan.....	188
OP-013 - IUCN Red List assessments of fishes endemic to Central Asia and adjacent regions	189
OP-014 - Role of Microbial Diversity and Priming Time on Effectiveness of Bio Priming in Lentil	190
OP-015 - The effects of KCl and CaSO ₄ on the Egg Production and Heart Rate of <i>Daphnia magna</i>	191
OP-016 - Mortality Records of Bats in a Wind Farm in Turkey.....	192
OP-017 - Effects of Industrial Livestock on Global Climate Change	193
OP-018 - Anatomy education with clay modeling in the distance education process: students' opinions	194
OP-019 - A Survey on Antimicrobials and Other Compounds in Earth Pond Farms, Muğla-Milas/Turkey.....	195
OP-020 - The Seed Germination and In vitro Culture Studies on Salvia Species in Flora of Turkey.....	196
OP-021 - Vaccine Development Infrastructure Studies to Protect The Health of Beneficial Insects	197
OP-022 - Usnic acid exhibits cytotoxic activity and decreases LncRNA UCA1 expression in HepG2 hepato cellular carcinoma cells	198
OP-023 - The Effect of Salinity on Morphological Characteristics in Young Olive Saplings.....	199
OP-024 - Identification of Hub Genes and Predicting Their microRNAs Associated with Seasonal Heat Stress Effects of Bovine Oocytes	200
OP-025 - Variations of Atmospheric Fagales Pollen; According to the Different Phytogeographical Regions of Turkey.....	201
OP-026 - The Effects Of Climate Change On Aquaculture In Turkey: A Brief Review	202
OP-027 - Evaluation of the salt stress effects at the molecular level in citrus.....	203
OP-028 - Endless Earth, Microbial Biodiversity	204
OP-029 - Phenotypic Plasticity in Anatolian Hardun: A Preliminary Study	205
OP-030 - Connection between epigenetic polymorphism and resistance of cultural cereals to biotic and abiotic stresses	206
OP-031 - Determination of genetic diversity in some naturally growing <i>Lilium candidum</i> populations in Turkey	207
OP-032 - Genetic and morphological diversity of the rocks colonizing cyanobacteria in Eastern Pamir (Tajikistan)	208

SEAB2021

www.seab2021.mu.edu.tr

ORAL PRESENTATIONS

OP-033 - Impact of increasing temperature on the taxonomic and metabolic diversity of bacterial communities in lake water	209
OP-034 - Molecular Responses to Cold Stress in Plants	210
OP-035 - Istanbul Artificial Reef Project.....	211
OP-036 - An update on freshwater fish fauna occurring in Muğla inland waters (Southwestern Turkey).....	212
OP-037 - Connection Between Genetic Polymorphism of Matricaria Chamomilla and Sensitivity to Various Stressors	213
OP-038 - Why mushrooms are important for human life	214
OP-039 - Localization in epithelial tissues polyphenols on the Canadian yew (<i>Taxus canadensis</i> Marsh.), ginkgo biloba (<i>Ginkgo biloba</i> L.) and nipponskoy yam (<i>Dioscorea nipponica</i> Makino)	215
OP-040 - Soil mesofauna in the city habitats, with special reference to Mesostigmata mites	216
OP-041 - Determination of Seasonal Changes of Insecticide Resistance Alleles in <i>Anopheles superpictus</i> Populations in Turkey	217
OP-042 - Microbial contamination of the air in the premises of the educational university	218
OP-043 - Biodiversity of soil mycobiota of the Chernobyl exclusion zone 30 years after the accident	219
OP-044 - Level of Lipid Peroxidation and Genomic Variability of <i>Cladosporium Cladosporioides</i> Strains Under Irradiation.....	220
OP-045 - Screening markers of prion-like proteins formation in plants under environmental stress	221
OP-046 - The Ethnomedical Uses and Biological Activities of <i>Origanum majorana</i> L. (Lamiaceae)	222
OP-047 - <i>In vitro</i> study of the toxicity of methanol extracts of different parts of <i>Spiranthes spiralis</i>	223
OP-048 - Ecological- genetically estimation of the consequences of pollution effects on biodiversity of radiation-contaminated territories of West part of Kazakhstan.....	224
OP-049 - Determination of Seasonal Changes of Insecticide Resistance Alleles in <i>Anopheles sacharovi</i> Populations in Turkey	225
OP-050 - Analysis of genetic structure based on the non-coding psaA/ycf3 intergenic region in <i>Liquidambar orientalis</i> Mill populations in Turkey	226
OP-051 - Reptiles of Lake Işıklı and its Vicinity.....	227
OP-052 - Investigation of Baculovirus Pathogens of Cotton Bollworm (<i>Helicoverpa/Heliothis</i> sp., Lepidoptera: Noctuidae) in Turkey	228
OP-053 - ISSR Marker Based Genetic Diversity of Honey Bees Populations in Turkey	229
OP-054 - Isolation and identification of a new bacterial cellulose producing strain	230
OP-055 - Successes of <i>Brachypodium distachyon</i> L. studies in Kazakhstan	231
OP-056 - Prospecting the Biofuel and Antibacterial Potential of New Microalgae Isolates from Kazakhstan	232
OP-057 - Diversity of culturable endophytic bacteria from stems and roots of halophyte <i>Tetragonia tetragonoides</i>	233
OP-058 - <i>Bacillus amyloliquefaciens</i> FH-1 significantly affects cucumber seedlings and the rhizosphere bacterial community but not soil.....	234
OP-059 - Ecological and biological characteristics of the bream (<i>abramis brama</i>) in the kapchagay reservoir	235
OP-060 - A study of present status of the Turkestan lynx population in the Southeast of Kazakhstan using a camera trapping approach	236
OP-061 - Plant biodiversity of the monitoring point of the village of Enbekshi, Talgar district.....	237
OP-062 - The gene pool of mammals of the state nature reserve Karatal-Zhapyryk	238

SEAB2021

www.seab2021.mu.edu.tr

ORAL PRESENTATIONS

OP-063 - Evaluation of the potential of the microalgae <i>Parachlorella kessleri</i> Bh-2 in the accumulation of cadmium and chromium ions	239
OP-064 - Effect of different concentrations of Mo, V, and Fe on the nitrogenase activity of cyanobacteria	240
OP-065 - Study of the effect of cyanobacteria biomass isolated from rice fields in Kazakhstan on the growth of rice culture.....	241
OP-066 - Introduction of perennial wheat to farming practice in South and South-East of Kazakhstan to conserve biodiversity and soil fertility.....	242
OP-067 - Study of the fungicidal effect of plant extracts	243
OP-068 - Technology of rapid reproduction of sweet potatoes (<i>Ipomoea batatas</i> (L.) Lam.) <i>in vitro</i>	244
OP-069 - Bio indication characteristics of some plant species on saline soils of the Absheron Peninsula.....	245
OP-070 - Phylogeny of wild boar in Central Asia and Caucasus: many questions and few answers	246
OP-071 - Taxonomic revision of the genus <i>Gentiana</i> L. (Gentianaceae Juss.) of Vietnam	247
OP-072 - Induction of calli from different explants of Jerusalem artichoke (<i>Helianthus tuberosus</i> L.) <i>in vitro</i>	248
OP-073 - The Effect of Bacteria Applications Showing ACCD Activity on the Seedling of <i>Cucumis melo</i> var. <i>agrestis</i> Seeds Under Lead Contaminated Media	249
OP-074 - Morphological features of <i>Cicer arietinum</i> L. seeds originated from several countries introduced in the M.M. Grishko National Botanical Garden.....	250
OP-075 - Isolation and selection of new highly active strains of phosphatemobilizing microorganisms from the soils of Kazakhstan.....	251

POSTER PRESENTATIONS

PP-001 - Turkey's Biodiversity Contribution to the subtropical climate zone Fruits.....	253
PP-002 - How Can We Stop the Extinction of Our Soils?.....	254
PP-003 - Alternative Food Plant Resources and Their Future Perspectives in Livestock Development.....	255
PP-004 - Ethnopharmacological Features of <i>Euphorbia</i> L. Species against Cancer	256
PP-005 - Wild Vegetables of Azerbaijani Flora: <i>Portulaca oleracea</i> L.....	257
PP-006 - Resource Assessment of <i>Glycyrrhiza glabra</i> L. Species in Some Regions of Azerbaijan	258
PP-007 - Antiviral and Immunomodulatory Herbs.....	259
PP-008 - On the Phytosociological study of High Sports Plants Used in Folk Medicine	260
PP-009 - Effect of Growth Stimulators on Relative Water Content (RWC) in Leaves of Soybean Plants Affected by Salinization.....	261
PP-010 - Effect of Plant Growth Regulators on Morphogenesis <i>in vitro</i> of <i>Salvia officinalis</i> L.....	262
PP-011 - Transient Expression of Gus Gene in <i>Physalis ixocarpa</i>	263
PP-012 - Phylogenetic diversity and prevalence of cucumber mosaic virus isolates from ornamental plants <i>Gladiolus</i> sp. and <i>Echinacea purpurea</i> in Ukraine	264
PP-013 - Determination of Anthelmintic Activity of <i>Lilium martagon</i> L. Extracts Distributed in Kazakhstan and Turkey	265
PP-014 - Cetacean Stranding Pattern along the Black Sea and the Sea of Azov Coastline in 2017-2020	266
PP-015 - Temporal Distribution of <i>Cladosporium</i> and <i>Alternaria</i> Spores in the Atmosphere of Gelibolu (Çanakkale), Turkey.....	267
PP-016 - The antiradical and phytochemical potential of dry extracts from <i>Sorbaria pallasii</i>	268
PP-017 - Discrimination of Bacterial Strains by Using Repetitive Domain Sequences with RFLP	269

Study of the fungicidal effect of plant extracts

Abstract

Since ancient times, the most important properties of plants, the production of industrial, various food, pharmacological and other products from them are studied to this day. In particular, secondary substances of metabolism are widely used in medicine, pharmacology, Veterinary Medicine and other industries, plants that differ in additional important substances are a valuable source of raw materials for many industries.

Recently, there has been an increasing interest in the use of biological preparations derived from medicinal plants, plants that have not yet been studied to control plant pests. After all, such biologics of plant origin are safe.

It is usually a matter of time to take antifungal drugs with an important biologically active additive. The study of the effectiveness of the action of alkaloids, anthraquinones, glycosides, saponins, tannins and polyphenols, which are biologically active compounds of plants that are usually responsible for antimicrobial, general medicinal properties, is a source of obtaining pest control drugs from many agricultural plants.

Therefore, the article studied the fungicidal and growth-stimulating properties of extracts of the aquatic plant *Pistia stratiotes*. Antifungal substances are usually more difficult to detect against some plant pests than diseases caused by bacteria (various fungal diseases).

The cell wall of fungi consists mainly of chitin and other polysaccharides, such as β -glucans, which prevent the action of antibiotics on cells. Therefore, appropriate screening methods for studying the antifungal activity of Natural Resources play an important role in determining fungicides. Biologically active substances obtained from plant extracts are the main source of pharmaceutical products used in folk medicine. Many scientists are interested in studying the Phytochemistry of biologically active substances such as alkaloids, flavanoids, saponins, etc., the nature of which is unknown and are sources of metabolites.

In the future, we plan to study the fungicidal and growth-promoting properties of plant extracts of *Pistia stratiotes* by growing aquatic plants in various nutrient media.

Also, we will devote our research work to determining the fungicidal properties of biologically active substances isolated from extracts of aquatic plants. As a sample, it was planned to determine the antifungal activity of extracts of the aquatic plant *Pistia* by the SEM method.

Keywords: drugs, plant, alkaloids, saponins, tannins, fungi, *Pistia stratiotes*.
