M 61 Methods and Techniques of Foreign Language Education: Senior Stage of  
Secondary School, Marina Savankova, Ulzhalgas Satyganova, Abay Zhussupbekov,  
Diana Tektibayeva, Almaty, 2018 – 176 p.

The textbook identifies the initial characteristics, structure, content and basic principles of  
specialized foreign language teaching and discusses the issues of profiling, as well as innovative  
technologies in the implementation of language communication at Senior Stage of Secondary  
schools. This textbook comprises four directions (natural- science, socio-humanitarian,  
economic and technical-engineering). The textbook contains methodological recommendations  
on the use of modern educational technologies in the process of implementing language  
communication by Senior Stage of Secondary School students, and covers issues of assessment  
as an important component of a foreign language educational process. Pragma-professional  
tasks were drawn up for the socio-humanitarian direction of a profile school, which will  
facilitate the process of mastering theory and help the process of developing professional  
competencies of a future teacher of foreign languages at Senior Stage of Secondary school. The  
textbook «Methods and Techniques of Foreign Language Education: Senior Stage of Secondary  
School», can be used as a guide for students of Foreign Languages Teacher Training Faculties in  
preparation for seminars and practicum, as well as for post-graduates and in-service teachers  
of foreign languages.
