

## MCCMB 2015

### Proceedings of the International Moscow Conference on Computational Molecular Biology

Organizers

Acknowledgements

Program

Седьмая Московская международная конференция по вычислительной молекулярной биологии MCCMB'15

Москва, 16-19 июля 2015

Сборник трудов. ISBN 978-5-901158-27-2

© Коллектив авторов, 2015

© ИППИ РАН, 2015

*Anatoliy Ivashchenko, Raigul Niyazova, Olga Berillo, Shara Atambayeva, Anna Pyrkova*

**Features of miR-574-5p and miR-574-3p binding sites in mRNA of target genes**

*Anatoliy Ivashchenko, Aigul Alybaeva, Raigul Niyazova*

**Binding sites of miRNAs with transcription factors' genes of Camelus ferus and Homo sapiens**

*Anna Ivshina, Vladimir Kuznetsov, Zhiqun Tang, Motakis Efthymios, Ghim Stong Ow*

**Genome wide survival prediction and network analysis stratifies breast cancers into three reproducible subclasses determined by novel genetic grading signatures**

J

up

K

up

*Olga Kalinina, Saskia Metzler, Silvia Caprari*

**Sequence and structural analysis of related proteins in distant viral species**

*Anastasia Kalinina, Alexandra Suvorikova, Vladimir Spokoyny, Mikhail Gelfand*

**The method for homologous recombination detection within bacterial species**

*P.Džnar Kavak, Bekir Ergüljner, Bayram Yİjksel, Duran Gьstек, Mahmut Ehamil SaДуд-роДulu, Tunca Gljngl ђr, Can Alkan*

**Improving genome assemblies using multi-platform sequence data**

*Sergey Kazakov, Vladimir Ulyanov, Veronika Dubinkina, Alexander Tyakht, Dmitry Alexeev*

**MetaFast: fast reference-free graph-based comparison of shotgun metagenomic data**

*Kamil Khafizov, Rene Staritzbichler, Maxim Ivanov, Marcus Stamm, Lucy Forrest*

**Anchoring patterns and point mutations in pairwise alignments using AlignMe**

*Peter Kharchenko*

**Classifying transcriptional and genetic heterogeneity in single-cell measurements**

*Matvei Khoroshkin, Semen Levn, Dmitry Rodionov*

**Transcriptional Regulation of the Carbohydrate Metabolism in the Bifidobacterium Genus**
